

# Sturgeon Bay Waterfront Projects

From 2002 to 2007, the City of Sturgeon Bay has undertaken a number of waterfront projects including:

The extension of an existing waterfront walkway network through the city's waterfront park;

The construction of three shore sites for off-loading weeds as part of the City's weed-cutting operation;

The revision of the City's aquatic plant management program to better conform with the goals of the DNR, Door County Soil and Water Conservation Office, and Bay Lakes Regional Planning Commission;

The provision of a waterfront walkway to provide ADA-compliant access from a boat launch area to a playground area; and

The acquisition of the waterfront Peterson Boat Property (approximately three acres).

- WI Department of Administration (DOA) Coastal Management Program Grants (\$577,350 from 2002 to 2007)
- WI Department of Natural Resources (DNR) Brownfields Site Assessment Grant (\$100,000)
- The annual Steel Bridge SongFest in downtown Sturgeon Bay raises funds to support the repair, maintenance, and restoration of the historic Michigan Street Bridge (pictured)
